

## INDEPENDENCE CITY UTILITIES BUILDING

This \$11 million project transformed an empty building on a former hospital campus into a LEED Platinum office building. The 47,500-square-foot space now houses three city departments, a customer service center, and a public meeting space.

**AVANT ACOUSTICS provided the following services:**

- Audio-visual systems design
- Digital signage design
- Sound reinforcement system design
- On-site system commissioning including operator training and assistance during the first use

**Project Highlights:**

AVANT ACOUSTICS designed and commissioned AV presentation, sound reinforcement, and conferencing/recording systems for the large training room and large conference room. Both rooms feature wireless audio-video sharing and collaboration capabilities from personal mobile devices such as phones and tablets.

In addition, AVANT created simple presentation systems for the smaller conference and training spaces.

**Project Location:**

Independence, Missouri

**Facilities:**

Lobby, Conference Rooms, Training Rooms, Community Room

**Client:**

Burns & McDonnell

**Designer:**

Robert G. Ledo

**Award:**
