

## Stormont Vail Events Center

The **AVANT ACOUSTICS** team worked with HTK Architects to plan and design the major renovation for multiple use and multiple space events center. The former Topeka Expocenter was transformed into the newly renovated Stormont Vail Events Center. The three main areas were the Arena, Expo Hall and Domer Livestock Arena.

AVANT ACOUSTICS provided the following services:

- Acoustical Consulting
- Sound and Video System Design
- Construction Administration
- System Commissioning

### Project Highlights:

Impressive audio and video systems were added to the arena to create a high-impact experience for the audience. The arena and expo hall systems were integrated and can act as a single large system for major exhibitions and shows that space both venues.

### Project Location:

Topeka, KS

### Facilities:

Sports / Events

### Client:

HTK Architects

### Designers:

Robert Ledo, John Hodgson,  
David Wetzel
